SUPPLEMENTARY INFORMATION:

BACKGROUND

The United States is a contracting party to the International Convention on the Harmonized Commodity Description and Coding System (“Harmonized System Convention”). The Harmonized Commodity Description and Coding System (“Harmonized System”), an international nomenclature system, forms the core of the U.S. tariff, the Harmonized Tariff Schedule of the United States. The Harmonized System Convention is under the jurisdiction of the World Customs Organization (established as the Customs Cooperation Council).

Article 6 of the Harmonized System Convention establishes a Harmonized System Committee (“HSC”). The HSC is composed of representatives from each of the contracting parties to the Harmonized System Convention. The HSC’s responsibilities include issuing classification decisions on the interpretation of the Harmonized System. Those decisions may take the form of published tariff classification

opinions concerning the classification of an article under the Harmonized System or amendments to the Explanatory Notes to the Harmonized System. The HSC also considers amendments to the legal text of the Harmonized System. The HSC meets twice a year in Brussels, Belgium. The next session of the HSC will be the fifty-fifth and it will be held from March 11, 2015 to March 20, 2015.

In accordance with section 1210 of the Omnibus Trade and Competitiveness Act of 1988 (Pub. L. 100–418), the Department of Homeland Security, represented by U.S. Customs and Border Protection, the Department of Commerce, represented by the Census Bureau, and the U.S. International Trade Commission (“ITC”), jointly represent the U.S. government at the sessions of the HSC. The Customs and Border Protection representative serves as the head of the delegation at the sessions of the HSC.

Set forth below is the draft agenda for the next session of the HSC. Copies of available agenda-item documents may be obtained from either Customs and Border Protection or the ITC. Comments on agenda items may be directed to the above-listed individuals.

Title: Entry/Immediate Delivery Application and ACE Cargo Release.

OMB Number: 1651–0024.

Form Number: 3461 and 3461 ALT.

Abstract: All items imported into the United States are subject to examination before entering the commerce of the United States. There are two procedures available to effect the release of

imported merchandise, including “entry” pursuant to 19 U.S.C. 1484, and “immediate delivery” pursuant to 19 U.S.C. 1448(b). Under both procedures, CBP Forms 3461, Entry/Immediate Delivery, and 3461 ALT are the source documents in the packages presented to Customs and Border Protection (CBP). The information collected on CBP Forms 3461 and 3461 ALT allow CBP officers to verify that the information regarding the consignee and shipment is correct and that a bond is on file with CBP. CBP also uses these forms to close out the manifest and to establish the obligation to pay estimated duties in the time period prescribed by law or regulation. CBP Form 3461 is also a delivery authorization document and is given to the importing carrier to authorize the release of the merchandise.

CBP Forms 3461 and 3461 ALT are provided for by 19 CFR 141 and 142. These forms and instructions for Form 3461 are accessible at: <http://www.cbp.gov/newsroom/publications/forms>.

ACE Cargo Release is a program for ACE entry summary filers in which importers or brokers may file Simplified Entry data in lieu of filing the CBP Form 3461. This data consists of 12 required elements: Importer of record; buyer name and address; buyer employer identification number (consignee number), seller name and address; manufacturer/supplier name and address; Harmonized Tariff Schedule 10-digit number; country of origin; bill of lading; house air waybill number; bill of lading issuer code; entry number; entry type; and estimated shipment value. Three optional data elements are the container stuffing location; consolidator name and address, and ship to party name and address. The data collected under the ACE Cargo Release program is intended to reduce transaction costs, expedite cargo release, and enhance cargo security. ACE Cargo Release filing minimizes the redundancy of data submitted by the filer to CBP through receiving carrier data from the carrier. This design allows the participants to file earlier in the transportation flow. Guidance on using ACE Cargo Release may be found at <http://www.cbp.gov/trade/ace/features>.

Current Actions: This submission is being made to extend the expiration date with a change in the burden hours resulting from the transition from Form 3461 to ACE Cargo Release. There are no changes to the information collected.
